Stakeholder feedback is a valuable source of information that can be used to improve safety, and identify and mitigate risks.

Join our presenters next Thursday as they help you to:
1. Evaluate stakeholders' experiences to influence the direction of future of security projects.
2. Utilize feedback metrics to raise awareness of the safety and security programs at your facility.
3. Justify security budgets, processes and business strategies based on data collected from stakeholders.

Don't miss out!
